*Every person matters*

## **Nurse Practitioner - KGH Cardiac** *Kelowna, British Columbia*

This is one of three exciting new Nurse Practitioner positions, each of which is a part time. Initially, each position will be 6 months term certain pending finalization of long term contracts. The NP will play a key role in the team's development to provide primary care for injuries and illnesses which should be seen by a health care provider within 12-24 hours, but which do not require the level of care provided in the hospital's emergency department. The NP will work shifts that include weekends and evenings, including statutory holidays.

The Nurse Practitioners will work alongside Family Physicians, Registered Nurses, Licensed Practical Nurses, and Social Workers in the new team-based Urgent Primary Centre. This new Center will increase access to multi-disciplinary team-based primary care that is person-and-family centred, culturally safe, and provides quality primary care. The Central Okanagan UPCC team will work to coordinate and integrate care with other providers, as well as support attaching people to a primary care provider in the community for their long term health care needs.

Interior Health offers work-life balance with competitive wages, excellent employee benefits, professional development and educational leave in a larger-than-life landscape and four seasons playground. Come and join our team...Apply today
